

KANDI HIMASHRI

+91-6302419583 | kandihimashri@gmail.com | GitHub | LinkedIn

SUMMARY

Aspiring Software Engineer with strong foundations in Data Structures, Algorithms, and Object-Oriented Programming. Skilled in building scalable applications using Java, Spring Boot, and React. Hands-on experience in Generative AI, LLMs, and cloud platforms.

SKILLS

Languages	Java, Python, C++, SQL
Web	HTML, CSS, JavaScript, React.js
Frameworks / Libraries	TensorFlow, Scikit-learn, Pandas, NumPy, LangChain
AI / ML	Generative AI, LLMs, Prompt Engineering
Developer Tools	Git, GitHub, Firebase, Google Cloud
CS Fundamentals	Data Structures & Algorithms, OOP, DBMS

EXPERIENCE

Generative AI Internship – Google 2024

- Worked with Large Language Models (LLMs) and prompt engineering
- Built AI-based solutions using cloud-hosted models
- Improved response quality through optimization

AI/ML Virtual Internship – Google (EduSkills & AICTE) Oct 2025 – Dec 2025

- Built and trained neural networks (CNNs) using TensorFlow; implemented image classification and object detection using pre-trained and custom TensorFlow Lite models
- Developed a product image search system with real-time camera integration, and connected ML models with mobile applications and backend services
- Applied end-to-end ML workflows including model training, optimization, deployment, and successfully completed final assessment and certification

PROJECTS

Equitas AI – Unbiased Decision Suite GitHub

- Built an AI-powered bias detection platform to audit datasets and ML models using fairness metrics like Statistical Parity and Disparate Impact
- Integrated Google Gemini API to generate explainable insights and recommend bias mitigation techniques (pre-, in-, and post-processing)
- Developed a full-stack system using React, Node.js, and data visualization tools for real-time analysis, reporting, and stakeholder decision support

Portfolio Website Live | GitHub

- Developed a responsive portfolio website using HTML, CSS, and JavaScript, ensuring cross-device compatibility
- Implemented interactive UI components to enhance user engagement and usability
- Deployed the application on Netlify with continuous integration for seamless updates

EDUCATION

B.V. Raju Institute of Technology B.Tech in Information Technology	2023 – Present (CGPA: 8.58)
Shree Akshaya Junior College MPC	2021 – 2023 (96.7%)
Karuna High School SSC	2021 (CGPA: 10.0)

ACHIEVEMENTS

- Solved 100+ DSA problems (LeetCode, CodeChef)
- Certified in Generative AI and AI/ML by Google
- Infosys Frontend Certification
- Participated in IIT Hyderabad and T-Hub workshops
